The Bogart Hills

Great neighbourhoods don’t just happen.
They’re created with intention.
They complement the land they’re built on and respect
the people who will one day call it home.

Where Community Comes Naturally.

Rooted in History Right for Today.

Long before Newmarket became Newmarket, this land was defined by progress. Water flowing through the Holland River, mills turning along the Carrying-Place trail, and families settling where work, nature, and community took form.

Illustrations are artist's impressions. E. & O.E.

History in the Making.

There are places you live, and places you feel lucky to call home. Bogart Hills brings together beautiful new homes, a remarkable natural setting, and the convenience of Newmarket, all within a community designed to feel special from the moment you arrive.

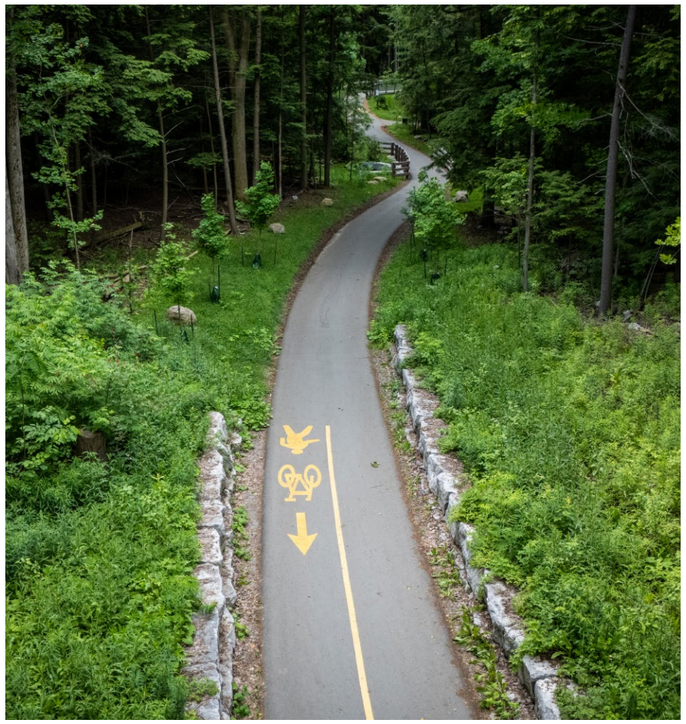

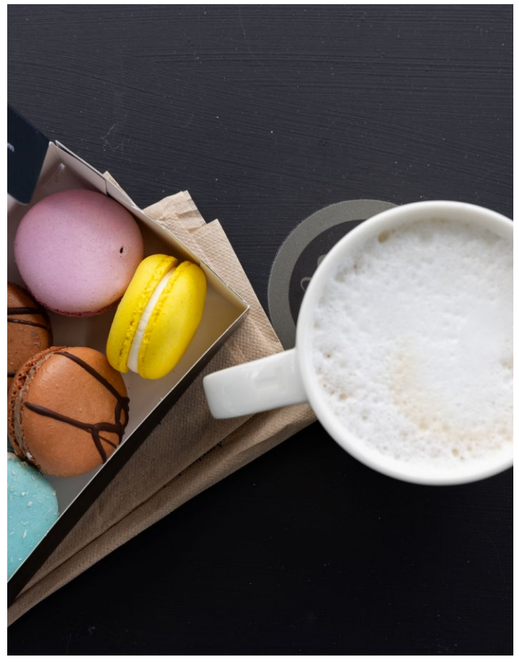

Where Roots Run Deep.

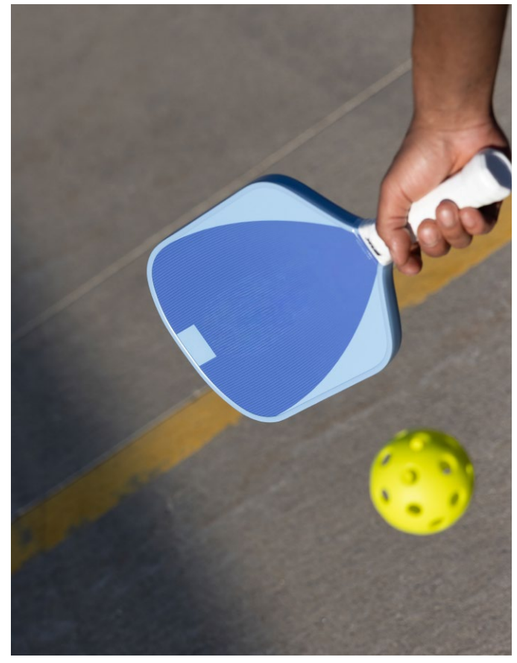

Surrounded by trails, waterways, and walkable streets, this land has always supported all aspects of life.

Convenient access to York Regional Transit and Newmarket GO Station means you can easily travel wherever life takes you and know you'll be returning to a place that you love.

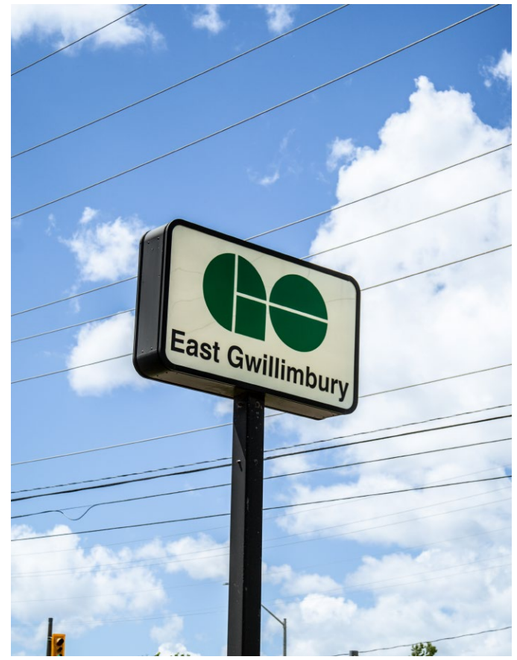

Located in a growing community, The Bogart Hills offers residents a convenient mix of everyday essentials and lifestyle amenities.

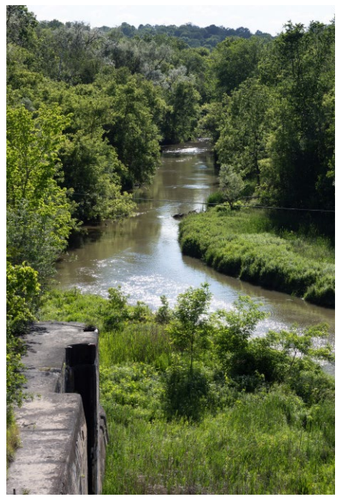

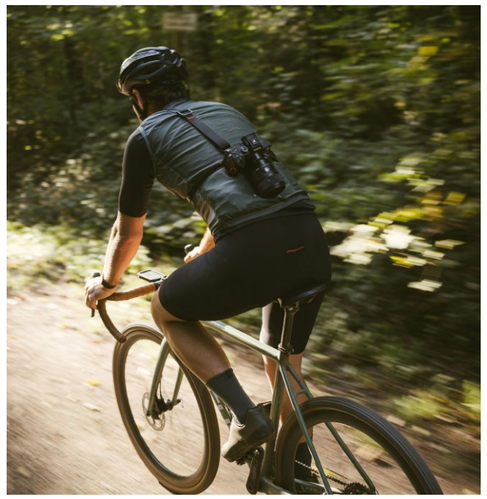

Live Closer to the Outdoors.

This scenic community is designed to bring the outdoors into your everyday. Whether you're on a morning run, taking an evening bike ride, or just spending time with family, the nature here is more than an escape; it's an extension of home.

Major Developments. Meticulous Execution.

For over a decade, City Park Group has been creating homes and communities with one guiding principle: the best projects are built with purpose from the very beginning. From townhomes and single-family residences to mixed-use developments, our work is defined not only by what we build, but by how we build it.

We develop, design, and build every project ourselves, staying closely involved in every decision, every detail, and every stage of the process. This hands-on, in-house approach gives us complete accountability from start to finish—delivering exactly what we promise, without compromise or asterisks.
