

PHASE 3B | SCHEDULE “E” FEATURES

36’, 43’ & 50’ SINGLE FAMILY HOMES

ATTRACTIVE EXTERIOR FEATURES

- Architecturally curated elevations feature a harmonious blend of exterior materials and finishes, thoughtfully selected in accordance with individual model plans. All elevations, colours, and materials are subject to architectural control to ensure a cohesive and visually appealing streetscape. Inspired by a diverse palette of architectural styles, the home designs at Union Village showcase a sophisticated mix of brick, stone, stucco, premium siding, durable roofing shingles, decorative columns, frieze boards, and more, as per plans.
- Homes are being built to meet the rigorous standards of ENERGY STAR® for New Homes certification. As part of this commitment to energy efficiency and performance, each home will undergo inspections and an airtightness test conducted by an independent third-party inspector.
- Vinyl Low-E Argon coloured casement windows on all elevations, excluding basement windows which will receive sliders (where applicable). All operating windows are to receive screens.
- Quality insulated front entry door with a vinyl frame, shall receive a grip set and deadbolt lock for your family's added security.
- Exterior lights and/or soffit pot lights to front porch/garage (as per model type).
- Low maintenance pre-finished aluminum soffits, fascia, eavestroughs and downspouts installed in locations (as per applicable plan).
- Self-sealing shingle roof with limited manufacturer's lifetime warranty.
- Premium quality steel insulated sectional roll-up garage door(s) equipped with heavy-duty springs and long-life, rust-resistant steel door hardware.
- Precast concrete walkway slabs from driveway to front porch.
- Poured concrete front porches (where applicable) may also receive poured in place concrete front steps where required by grading.
- Municipal address numbers installed on front elevation.
- Asphalt paved driveway to the width of the garage.
- Lot to be professionally graded and sodded in accordance with approved grading plans, excluding driveway, front walkway, rear steps, and designated treed areas where applicable. Side yard spaces between adjacent homes may be finished with clear stone, subject to site conditions.

ENHANCED CONSTRUCTION FEATURES

- Two (2) exterior electrical outlets are included; one on porch, and one at rear of house.
- Two (2) exterior water faucets are included; one in garage and one at rear of house.
- Poured concrete foundations include an exterior plastic drainage layer and weeping tiles (where applicable) for extra protection.
- Garage floors are poured concrete complete with reinforced grade beams (where applicable).
- Poured concrete basement floor with floor drain.
- Convenient direct access from garage to home via an insulated metal door, complete with deadbolt where shown on plans and model types only, and where grade permits only.
- Robust 2" x 6" exterior wall construction engineered for enhanced strength and structural integrity, featuring R22 cavity insulation complemented by an additional R5 rigid exterior insulation for superior thermal performance.
- Shut off valve under every sink and toilet.
- Engineered floor system that will reduce construction waste, floor squeaks, shrinkage and twisting and will provide a more comfortable and quieter home.
- All windows and doors are installed and sealed with expanded foam and caulked.
- Attics feature R60 insulation.
- R31 spray foam insulation to exterior exposed ceilings with livable floor areas above. Spray foam insulation provides a superior air seal and greater comfort compared to traditional batt insulation.
- Full height R20 blanket insulation (approx. 6" above finished floor) on exterior concrete foundation walls in unfinished basements.
- High efficiency gas fired heating system.
- All heating/cooling supply ducts are sealed to promote tight and efficient ductwork.
- Continuous air barrier for increased air tightness and energy efficiency.

HIGH QUALITY FLOORING FEATURES
